

COSMOSTAR PNEUMATIC TRANSFER PUMP

Pumping your highest volumes and viscosities!
With higher pump pressures and flow rates, Cosmostar piston pumps handles a broad range of fluid materials with ease. They offer durability, power and reliability in any fluid application.

Pneumatic Motors
Cosmostar pneumatic motors, 10" hulk, 7" flash, 6" compact, 4" enco and 2" huffus provide rugged and reliable life time, and handle high viscous fluids.

Durable & always available
Constant supply of spare parts, along with durable spare part quality. Thus low maintenance cost.

Long Lasting Durability
Cosmostar durable piston pumps survived the test of time, while our pneumatic motors are long lasting and able to provide constant fluid flow, pressure and minimal pulsation.

Easy Maintenance
Cosmostar air motors are designed with modular components so that no special tools are needed to assemble and repair.

Flat Finishing Spray Package
Central pump finishing line provides uniform and controlled fluid delivery and easily feed multiple guns.

Pneumatic Transfer Pump | Transfer Pump

Whether you're specialty is ink manufacturing, printing, or both, it's tough to beat these CosmoStar pneumatic transfer pumps! offers a variety of priming piston and diaphragm pumps, for low to high viscosity materials, that are built for years of reliable service. A wide range of pump lowers and mounting configurations guarantee you get the best pump for your application. Our qualified industrial distributors can expertly combine equipment components and accessories tailored to fit any setup.

Transfer Pump Specification

Pressure ratio	Air Motor	Model	Max. Operation Pressure	Max. Volume Flow Rate
20:1	Hulk(10in)	CY-0166	160 BAR (2320 PSI)	46 LPM (12.1 GPM)
10:1	Hulk(10in)	CY-0169	80 BAR (1160 PSI)	60 LPM (15.8 GPM)
12:1	Flash(7in)	CY-0164	96 BAR (1392 PSI)	40 LPM (10.5 GPM)
10:1	Flash (7in)	CY-0165	80 BAR (1160 PSI)	46 LPM (12.1GPM)
5:1	Flash(7in)	CY-0166	40 BAR (580 PSI)	60 LPM (15.8 GPM)
30:1	Compact (6in)	CY-1300-A	240 BAR (3480 PSI)	4 LPM (1 GPM)
23:1	Enco (4in)	CY-1450-A	184 BAR (2668 PSI)	2 LPM (0.5 GPM)
10:1	Compact (6in)	CY-1312	80 BAR (1160 PSI)	10LPM (2.6 GPM)
7:1	Compact (6in)	CY-1315	56 BAR (812 PSI)	18 LPM (4.7 GPM)
5:1	Enco (4in)	CY-1302	40 BAR (580 PSI)	10 LPM (2.6 GPM)
5:1	Compact (6in)	CY-0185	40 BAR (580 PSI)	28 LPM (7.4 GPM)
3:1	Compact (6in)	CY-0182	24 BAR (348 PSI)	38 LPM (10 GPM)

Pumps that last!
